THRIVEWELL AI

Good morning, Marissa

PANEL 08.14.26 · 47 MARKERS

↑ 6 PTS SINCE MAY
Metabolic and inflammatory
markers are trending well. Two
areas need your attention.
[How this is calculated](#)

Priority findings All 47

- ApoB** 112 mg/dL
Above optimal (<80). The strongest single predictor of cardiovascular risk on your panel.

[DR. MAKAMURA LEFT A NOTE →](#)
- Vitamin D, 25-OH** 21 ng/mL
Insufficient. Likely contributing to the fatigue you reported at intake.

[PROTOCOL SUGGESTED →](#)
- hs-CRP** 2.4 mg/L
Borderline inflammation — down from 3.8 in May. Keep going.
